Education

Brigham Young University - Idaho

Bachelor of Software Development. GPA 3.41

Rexburg, ID

April 2022 - Dec 2026

BYU - Pathway Worldwide

PathwayConnect Program

(Remote)

2020 - 2022

Experience

The Brooklyn Brothers

Mid Fullstack Developer

(Remote)

Jun 2024 – Present

- Served as sole developer for Trend.in, an internal social listening and campaign analytics platform built with NestJS, React, and TypeScript; architected a custom Campaign Health Score utilizing per-organization multipliers and hierarchical aggregation (post → influencer → campaign).
- Engineered Meta Graph API data pipelines combining authenticated and public endpoints to capture engagement, reach, and Stories metrics; built an anti-expiration background job snapshotting Stories data to AWS S3 every 6 hours.
- Acted as sole developer for USocial (and usocial-embed), extracting Facebook and Instagram assets via Meta Graph API into customizable website widgets deployed in production for Dove Brazil.
- Developed and deployed brand platforms for enterprise clients including Unilever, MINI Cooper, and HOKA across React, Shopify, and Adobe Experience Manager (AEM), consistently hitting 90+ Google Lighthouse performance benchmarks.
- Co-created ChatTBB in 4 hours during an internal AI Hackathon (Winning Entry), implementing a Retrieval-Augmented Generation (RAG) chatbot using NestJS, TypeORM, PostgreSQL, and OpenAI embeddings for automated document querying.

FYDU / ABA Blockchain

Front-End Developer

Fortaleza, CE, BRA

Oct 2022 – May 2024

- Engineered browser-based digital signature workflows featuring dynamic PDF rendering, rubric/signature placement, drag-and-drop coordinates, and automated document compilation.
- Designed and shipped a cloud file management module featuring hierarchical folder navigation, multi-file uploads, real-time file previews, and role-based access control (RBAC) permissions.
- Maintained modular component libraries using React, TypeScript, and SCSS, ensuring responsive design across desktop and mobile browsers.

NESTEC

Front-End Developer Intern

Fortaleza, CE, BRA

June 2022 – Oct 2022

- Acted as sole front-end engineer for an end-to-end ticketing and event management platform using React, JavaScript, and CSS3.
- Integrated Google Maps API, ViaCEP, and BrasilAPI for automated address lookup and validation, reducing checkout friction and facilitating ~200 ticket sales during the initial production launch.

Leadership & Activities

The Church of Jesus Christ of Latter-day Saints
Missionary Volunteer

Toronto, Ontario
May 2019 – April 2020

- Honed communication, training, and leadership skills in English through orienting new volunteers and managing digital community outreach.
